Germany Rushes 300,000 To 400,000 Reinforcements to West—Ostend May Now Be in Hands of Germany—Allies Must Penetrate Teuton Line to Deliver Blow as Battle Front Extends to English Channel—Russians Stop The Germans Near Warsaw.

OSTEND HAS FALLEN

LONDON, OCTOBER 16.—(BULLETIN).—A LONDON CENTRAL NEWS DISPATCH SAYS FUGITIVES ARRIVING AT DUTCH FRONTIER SAY OSTEND HAS FALLEN INTO HANDS OF GERMANS. THE DISPATCHES COME UNDER AMSTERDAM DATE.

By Associated Press.

Paris, October 16.—The steady hammering of the allies on the German left wing of the French battle front has brought them almost within cannon range of the forts at Metz. In spite of this menace, part of the German Crown Prince's army hangs on doggedly to the position it has taken on the Meuse near St. Mihiel. The fighting on this end of the long battle line is said to have been desperate on the part of both sides during the past week, though overshadowed for the time by the operations on the allies' left. More important developments, however, are looked for between the Meuse and the Moselle while the battle of the four rivers goes on in the west. The French are now in possession of the route from Nancy to Metz, as far as Dagny, on the Lorraine border and menace the route from Verdun to Metz in the neighborhood of Etain, endangering communication of the Crown Prince's army with the German fortified camp. Alsace continues also the scene of daily struggle for possession of points of vantage.

due south, connecting with their forces in France, leaving the Germans without a flank anywhere. With no flank to turn the allies will have to break the line somewhere.

All England is buzzing now with talk of the spy menace. What is said to be a spy dressed in a Belgian uniform has been arrested among the refugees.

Taking dispatches from Petrograd, Berlin and Vienna as a basis of information, it is almost impossible to determine with any accuracy the situation in the eastern theater of war. In spite of the claims of victory here and defeat there, there is reason to believe that the fighting so far has been confined to cavalry engagements and that a general action has not yet begun.

Petrograd claims that the German movement on Warsaw has been stopped. Przemysl, it is asserted, is on the verge of capitulating. Vienna announces that the commander of the fortress at Przemysl refused a request to surrender on October 2 and that since that date the Russians have been defeated and the city relieved.

Tokio announces that Japanese warships bombarded two forts at Tsing-Tau October 14. The Canadian troops, which recently arrived in England, were assembling today on Salisbury Plains. "Important German reinforcements have been sent to the west front," says a report received here today. It is estimated the number of troops is between 300,000 and 400,000.

Since the beginning of the war Great Britain's casualties in officers amounts to 1,203, of whom 280 were killed, 625 were wounded and 298 are missing.

Paris, October 16.—French official announcement today is as follows: "The progress indicated in the communication of yesterday has been confirmed. On our left wing the field of action of the allied forces extends at the present time, from the region of Ypres to the sea. In Russia, on the left bank of the Vistula river, the Russian troops, during the day of October 13, repulsed the German attacks on Warsaw and Ivanogorod. A battle is going on south of Przemysl."

Washington, October 16.—The German embassy today received the following official wireless report from Berlin: "Official headquarters reports that near Antwerp between 4,000 and 5,000 prisoners were taken and that among the war booty are 500 cannon, 4,000 tons of grain and plenty of wool, metal and cattle.

The harbor works are undamaged. The French attacks near Albert have been repulsed. The Russian advance in East Prussia has failed. The Russian attack with eight army corps from Warsaw and Ivanogorod has been repulsed."

The German Crown Prince, whose army has been forced back almost into Germany and its lines of communication are threatened by the French.

ARE ASKED

By Associated Press.

New York, October 16.—A suit against Charles W. Morse and the Hudson Navigation Company charging a conspiracy, was filed in the Federal court today by the Manhattan Navigation Company. The action is brought under the Sherman Anti-Trust law and the defendant's methods in operating boats on the Hudson river are alleged to have accomplished the plaintiff's ruin. Damages of \$1,050,000 are asked.

By Associated Press.

London, England, October 16.—The police have found near London a building occupied by Germans, the foundations and roof of which are of heavy concrete. They arrested 22 Germans in the building.

SIXTH BRITISH
CRUISER SUNK

By Associated Press.

London, October 16.—The British cruiser Hawke has been sunk in the North Sea by a German submarine. Out of a crew of 400 men, 50 were saved. This has been officially confirmed by the British Admiralty.

The loss of the Hawke makes a total of six British cruisers destroyed by Germany in the North Sea since the beginning of the war.

Another thrust from the German submarine service has robbed the British navy of the cruiser, Hawke, and has raised the tally on their warships sunk by the Germans to 7. To this must be added the virtual destruction of the cruiser Pegasus, by a German warship at Zanzibar. The Hawke was sunk yesterday in the North sea, the graveyard of six other warships which were the victims of German torpedoes.

TAX ON
MESSAGES
BY WIRE

By Associated Press.

Washington, October 16.—Taxes on tobacco and wine and on telephone and telegraph messages, as framed by the Senate Finance committee, were adopted today by the Senate as part of the war revenue bill, leaving the proposed cotton relief provision as the only matter still in dispute. After the Senate had agreed to all of the committee amendments, Senator Pomerene proposed an amendment which would make permanent the 55 cents a gallon tax on grape brandy, used in the fortification of sweet wines. His amendment was rejected.

\$52,000 INCREASE IN
FAYETTE COUNTY TAX

The Budget Commission, Auditor Henkle, Pros. Atty. Maddox and Mayor Coffey, this morning fixed the tax rates for the various taxing districts of the county, signed the papers and sent a copy of the "figgers" to The State Tax Commission.

This thing has been hanging fire for several weeks, following the estimates made by Auditor Henkle and sent to the commission. Both Maddox and Coffey objected to the rates going through without their approval and as a result of their objections the meetings of the Budget Commission were renewed.

The final figures agreed upon, however, are the same as originally made in the whole county, with the single exception of Union. It so happened in Union that trustees asked for \$6000 for general roads and \$14,000 for state aid roads, which boosted the tax rate of 6.8 mills last year to 9.3 mills for 1914. This matter has been compromised by reducing the general road fund of the township to \$3,300 and fixing the tax rate at 8.8 mills.

Under the new rate Union township taxpayers will be called upon to pay in this year \$47,278, as against \$34,626 last year, an increase of \$12,652. It has been pointed out that by issuing bonds to take care of the state aid road building, the increase in tax would have been hardly noticeable.

Under the tax rates throughout the county, as now fixed and put up to the State Tax Commission for approval, the county will be asked to

contribute in 1914 taxes \$364,566. Last year a total of \$333,385 found their way into the treasury, which shows a boost of \$31,181 in the new figures.

In the meantime the state levy has been reduced by the legislature more than one-half, which relieved Fayette county taxpayers of a burden of \$20,585, but this sum must be added to the increase above for the reason that the tax rates as made today, swallow up every dollar cut off by the state and show a total of \$51,766 demanded by local taxing authorities over last year. Half of the districts show a decrease and the other half an increase in rates over last year, yet the county shows an increase of \$2,429,000 in taxable property.

The old rates are shown below in light figures and the new rates are shown in black figures:

Concord, 6.3—6 mills; Green 7.8—7 mills; Jasper, 6.5—7.5 mills; Milledgeville S. D., 7.8—8.5 mills; Milledgeville, 10.7—10.4 mills; Octa, 7.7—10.1 mills; Jefferson, 7—6.6 mills; Jefferson S. D., 10—9.35 mills; Jeffersonville, 13.7—13.1 mills; Madison, 7.4—7.2 mills; White Oak, S. D., 7.4—6.6 mills; Marion, 6.5—6.2 mills; New Holland, 8—14.26 mills; Marion-Madison S. D., 7.75 mills; Paint, 7.3—8.1 mills; Bloomington S. D., 11.6—13 mills; Bloomington, 13.7—13 mills; Midway S. D., 9.2—9.83 mills; Perry, 8.3—9.8 mills; Buck Run S. D., 7.2 mills; Perry-Green S. D., 8.6—7.59 mills; Union 6.8—8.8 mills; Wayne, 9.8—10 mills; Washington C. H., 13.5—12.7 mills.

GARDNER INSISTS

By Associated Press.

Washington, October 15.—Representative Gardner, of Massachusetts, made a speech in the House today, urging the adoption of his resolution for an investigation of the preparedness of the United States for war "offensive or defensive."

"For a dozen years I have sat here like a coward, in silence, and listen-

ed while men have told us how the United States can safely depend in war times on the state militia and the naval reserves," he said. "All the time I knew that it was not so. Under delusion, in ten short years we have let our navy slough off until today it is a very bad third and sinking rapidly to fourth or fifth place among the world navies."

By Associated Press.

New York, October 16.—The state Supreme court issued an order today directing the Chicago, Rock Island and Pacific Railroad company to show cause why a receiver should not be appointed to take charge of properties not already pledged, and to institute action to recover from the railroad directors an amount of damage alleged to have been caused the railroad and its creditors.

Washington, October 16.—Frederick C. Sharrod, an examiner of the Interstate Commerce Commission, describing transactions by which the Rock Island acquired the Frisco lines, declared the loss to the Rock Island railroad was "just about \$35,035,000", and that it was carried on the company's books as an asset.

The state convention of the young people's branch of the W. C. T. U., was held in Newark, O., the 16th to the 15th inst., at which the only Y. P. B. in Fayette county was represented by Mr. C. E. Hopkins, president, and Mr. E. L. Noble, vice president of the Madison Mills branch. This was the fourth annual convention of the state organization, and was presided over by Mr. Ray Vaughn, the state president, of Columbus, O.

Mr. Hopkins, the above mentioned, was elected state superintendent of Anti-Narcotics to succeed Mr. Ray Hamilton, of Burlington, O. This is a very important department as it deals in particular with the evil effects on the youth, of the cigarette, and in general the effects of tobacco on the human system. This opens a field of education to all the young people of the state, different from any yet instituted. It is expected this work will make rapid strides toward bringing into close touch our young men and young women, with adequate knowledge of the effect of the above habits.

**HOW TO PREVENT
ACID STOMACHS AND
FOOD FERMENTATION**

By a Stomach Specialist.

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bisaturated magnesia, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the bisaturated magnesia, as I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G. adv

**CHARITY AND CORRECTION
WORK IN FAYETTE COUNTY**

Secretary of Ohio Board of Charities and Correction Gives Report of Funds Expended For Such Work in This County During Past Year, and Amount Reaches in Excess of \$37,646.30.

Mr. C. N. Pond, Secretary of the Ohio Conference of Charities and Correction, has forwarded a copy of his report of the amounts expended in this county during the past year, for work in the above departments, and it will be surprising to the average reader to learn that the grand total is above \$37,000.

Mr. Pond's report in part is as follows:

During the last reported year, there have been disbursed in and for Fayette county the following sums:

Township relief by trustees, \$4,482.22; jail maintenance, \$962.50; infirmary, \$3,942.34; outside relief by infirmary directors, \$1,408.97; children's home, \$4,866.30; blind relief within the county, \$3,014.50; proportionate share of cost of state institutions, \$18,969.47; total \$37,646.30.

You will observe that these disbursements relate only to the public funds. They include not one penny coming from any church or aid society or private individual. Another matter involved is that of organized charity. It is vital that every relieving officer, both public and voluntary, as well as citizens in general, should cultivate that kind of co-operation which will prevent wasteful charity and promote self-help.

My office will furnish to any worker the details of township relief, except for Jefferson township, which did not report. Perry and Union made incomplete reports.

Your county has been regularly represented in the state conference of charities and correction. At the last one, held in Akron, November, 1913, the attendance was cut down by the weather; but in a recent year there were present from Washington C. H., Mr. and Mrs. Frank Casey, superintendent and matron county infirmary, Hugh Rodgers, infirmary director, and I. N. Rowe, blind relief commissioners. Yours sincerely, C. N. POND, Secretary.

The "Home Rule" Amendment

There should be absolutely no doubt in the minds of the voters of Ohio as to how they should cast their ballots on November 3rd next, on the proposed "Home Rule" amendment to the Constitution of the state.

That proposed amendment, if it receives a majority of the votes cast on election day, means, concisely stated, the destruction of the county unit in the present local option laws. It was prepared by experts, at the request and in the interest of the brewers, distillers and retail liquor dealers of the state and nation, with a view to enlarging the territory where intoxicating liquors could be sold, legally, at retail.

Stripped of all technical language, the "Home Rule" amendment means that the voters of the county outside of the municipality will be denied any right to say whether intoxicating liquors shall or shall not be sold at retail at the county seat or other incorporated cities or towns in the county. It means a renewal, at regularly recurring intervals, of the old distasteful "wet and dry" fight, with the consequent disturbance to the business and social relations of the community.

Making a local application of the conditions which would follow the adoption of the "Home Rule" amendment, it means that the city of Washington, which has been without saloons for a number of years now, and where business and social conditions have become adapted to the existing order of things, would be plunged into a nasty fight on the wet and dry question. As conditions exist at present, Fayette county, including Washington, is so overwhelmingly opposed to the retail liquor traffic in Washington, that the advocates of the open saloon have abandoned the territory and have not made any attempt, during the past half dozen years, and are not likely to make an attempt for some time to come, to vote the saloon back in Washington. The city of Washington, however, voting separately on that question, would be debatable ground. As a consequence, our people of Washington have been spared the agitation, the annoyances and the paralyzing disturbances to business and social relations which are bound to follow a campaign on the wet and dry issue.

It is not likely that the people of Washington, blessed as they have been for years with the enjoyable condition which exists, where the local option question is disposed of permanently, will forget the turmoil of that time before the community was able to take a long breath and feel free of the plague of agitation on local option.

Aside from the moral question entirely, and viewed from the cold-blooded standpoint of business, it would be an awful mistake to return to old conditions, which mean a constant agitation of business. The voters of Washington and Fayette county, and of every other one of the smaller municipalities in the state, cannot fail to remember the time when one couldn't buy or sell a celluloid collar button without being asked to declare on the wet and dry question.

To adopt the brewers' and distillers' "Home Rule" amendment, means a retreat by the temperance forces. That's true and that's bad enough, but aside from the voters' convictions and sentiments predicated on the moral issue, there is the practical side which should appeal irresistibly to every voter not directly interested financially in the retail liquor traffic.

In the smaller cities and towns throughout Ohio, where the local option question is settled and settled to stay settled, it would be suicide, viewed from a business standpoint, for the people to vote for a return to old conditions.

The opponents of the amendment which provides for state wide prohibition have the argument that its adoption would disturb vested property rights and result in the confiscation of enormous fortunes invested in the business and the consequent disturbance of business conditions in territories where the retail liquor traffic is permitted. That argument is forceful to a great many voters, whose viewpoint includes both the moral and the business sides of the question.

The advocates of the "Home Rule" amendment, however, have no argument, either on the moral or the commercial side of the question. They are absolutely without a peg upon which to hang any argument of weight.

If there ever was an amendment to the Constitution proposed to the people of Ohio which should be overwhelmingly defeated by the voters, the "Home Rule" amendment is beyond doubt that one.

Poetry For Today

WIRELESS.

A spirit poised on the winds am I,
Held at rest by a power divine;
In din or silence of earth and sky
The hush of a listening heart is mine.

Wild birds, passing on tireless wing,
Cry aloud as they speed along,
White sails out from the harbor swing,
And gayly rises the sailor's song.

The earth's dark pageant moves beneath,
The lights of the firmament wax and wane,
The day is plunged in its shadowy sheath,
And drawn its glistening length again.

But never the sky, and never the sea,
Starry with lights, or abrim with stars,
Never the morning speaks to me,
Never the sunset's crimson bars;

I hear the whispering winds that come,
With not a thrill to my waiting heart;
Unheeded rises the city's hum—
The city and I are things apart.

Till soft, on the silently beating air,
A wordless whisper, a secret sign,
Straight to my spirit a message bear,
Caught from a spirit attuned to mine.

When lo! with a mighty, soundless cry,
My soul leaps after its answer sent
The wise old world goes blundering by,
But spirits akin have touched and blent.

London, Oct. 16.—A wireless dispatch received here says that it is officially reported that Austrian cavalry has entered Przemyśl and that the Russians have been unable to prevent the relief of the Galician fortress.

BERNSTORFF
REPLIES TO
THE BRITISH

Belgian Neutrality Non-Existent
Since 1906.

Washington, Oct. 16.—The controversy between the German and British embassies regarding the significance of documents which the German authorities reported they found in the Belgian archives at Brussels regarding military arrangements between the Belgian and British governments, was continued when Ambassador Bernstorff issued a statement in reply to the answer of the British ambassador to the earlier statement of the German envoy.

The German contention is that these documents prove that Belgian neutrality has in reality been non-existent since 1906 because of the altered arrangements for the transportation of British troops into and through Belgium. The British reply is that, even if such documents were really found in the Belgian archives, they prove nothing except that the Belgian government had found the attitude of Germany so menacing that she felt compelled to consult with military experts of the British government with regard to possible action in case of certain contingencies arising. These consultations, the British contend, committed neither government to any course of action, and were far from constituting an unneutral act on the part of Belgium.

Count Von Bernstorff's reply to the British contention is as follows: "Concerning the Anglo-Belgian military agreement existing since 1906 a formal denial has been issued by England which proves nothing. The documents are in the hands of the German military authorities and will be published in full. The fact remains that a so called neutral country concluded a military agreement with England which provided for landing British troops in this 'neutral's' country. The documents prove that by its own free will 'neutral Belgium' accepted the British offer and decided to fight on the side of the allies. England instigated Belgium to go to war and when the time came to protect the little country it was left to its own resources."

SIMPLY BREATHE IT

That's the Way You Use Hyomei, the Safe Catarrh Remedy.

The most pleasant, easiest, harmless, and the really sensible method for the cure of catarrh is Hyomei, which can be had from any drug store. Just put twenty drops of the liquid in the small inhaler that comes with every complete outfit—then breathe it. A few minutes' use almost instantly clears the head and stops that annoying sniffing.

When using Hyomei every particle of air that enters the breathing organs is charged with an antiseptic, healing balsam that destroys the catarrh germs, stops the unclean discharges from the nose, relieves the irritation and quickly heals the sore and inflamed tissues. The first day's use of Hyomei will show a decided improvement no matter how distressing the trouble.

Catarrh, which usually begins with a neglected cold, often becomes a very serious ailment, so don't wait but start using Hyomei today—it is inexpensive and T. F. Brown always sells it on the "No-cure-no-pay" plan. adv

SAYS ITALY TO
REMAIN NEUTRAL

Washington, Oct. 16.—Italy will remain neutral in the European war unless by some unforeseen development her vital interests are threatened, Count Di Cella, the new Italian ambassador to the United States, declared. "We have remained strictly neutral thus far," he said, "and at the time of my departure from Italy there appeared no reason to believe that we would abandon that policy. I have heard nothing from my government since my arrival in America which leads me to think that we shall take part in hostilities."

YOUNG GIRL DISAPPEARS WRITES FROM THIS CITY

Elizabeth Rader, 16-Year-Old Daughter of Orlando Rader, of Waverly, Believed to Have Eloped With Doctor—Last Heard of in This City, Where She Claimed to Be Safe and Would Return Home.

The strange disappearance of a sixteen-year-old Waverly girl, who was last heard of in this city, is arousing considerable interest in this part of Ohio at present, and the entire story is given by the Circleville Union Herald, which says:

"Elizabeth Rader, 16 years old, a daughter of Orlando Rader, of Waverly, disappeared from her home the evening of September 24 and so far no trace of her can be obtained.

"On September 25, her father received a letter postmarked Washington C. H. The letter had evidently been written by the girl before leaving home as the stationery was similar to that at her home. The letter was dated Friday, September 24. That date fell on Thursday.

"In the letter the girl stated that she was safe at Washington C. H., and would return after a while. Later it was learned that the girl was not in Washington C. H., and on Tuesday, the father and the brother

of the girl were in Chillicothe to consult with Humane Officer Hamm regarding the matter.

"They informed Officer Hamm that they had reason to believe that the girl had left home with an older man living in that vicinity who claimed to be a quack doctor, as the latter had disappeared at the same time.

"The girl had no company at home save this man, who had been ordered away from the house several times by the girl's brother. Her mother is dead. The man in question claimed to have had a farm in Michigan and whether he took the girl to that state in violation of the Mann white slave law remains a question.

"If it can be proven that the man left with the girl and did not leave the state, and if he is apprehended, he can also be handled under the 'county to county' law.

"Humane Officer Hamm would not disclose the name of the man, but admitted that he had discovered that he had been seen in Delaware last week. He was also in Chillicothe during the first half of the Farmers' Fall Festival week and on the Thursday evening of that week left that city, bound for Waverly. It was on that evening that both he and the girl disappeared."

FORMER LOCAL MAN KILLED BY TRAIN IN COLUMBUS

Mr. Frank J. Clancy, aged 40 years, of Columbus, son of Mr. and Mrs. Patrick Clancy of this city, met almost instant death at Dennison avenue in Columbus, a day or two ago, when he was caught by a train and crushed in a horrible manner.

Mr. Clancy, who was an employee of the Pennsylvania railroad, had just thrown a switch and stepped back upon another track to allow his train to take the siding, when he was struck by another train, and both legs severed near the body, and his head was crushed. He died before an ambulance reached the scene.

When Mr. Clancy's wife was informed of the fate of her husband,

she collapsed, and has been in a serious condition since that time, suffering from heart trouble.

Mr. Thomas Clancy, a brother, went to Columbus as soon as he learned of his brother's death, and took charge of the funeral arrangements. The father and mother left this city Friday morning to attend the funeral, which was announced for Friday afternoon, with interment in a Columbus cemetery.

Besides the heart-broken widow, the deceased leaves two children.

Mr. Clancy left this city about 19 years ago, and since that time has resided in Columbus. At the time of his death his home was 655 1/2 North High street, Columbus.

WELL KNOWN YOUNG MAN IS SUMMONED

David Earl Robison, aged 24 years and 9 months, son of Willis and Lora Robinson, who reside northwest of this city on the Jamestown pike, died Friday a. m. at 12:10, after suffering for sometime from typhoid and pneumonia.

The young man was well known in this city and county, and has a host of friends who are deeply pained to learn of his death.

The deceased leaves five sisters and three brothers.

Funeral services Monday morning at 10:30 o'clock, at Grace M. E. church, and burial in the Washington cemetery.

TRIO OF YOUTHS HELD TO COURT

Jess Moore, "Pat" Barker and Willis Johnson, the trio of young hold-up men arrested Thursday afternoon for the theft of a purse belonging to Mrs. H. M. Fullerton,

wife of candidate for representative from Highland county, are still in jail, and have been bound over to the grand jury.

The charge against them is similar to that of picking pockets, and the offense is punishable by a term in state prison.

The three admitted their guilt, with Johnson being the ring-leader and pocketing the "lion's share" of the stolen money.

FIRE DAMAGES DOCTOR'S HOME

Fire which is supposed to have started from an overheated escape pipe or an instantaneous heater in the bath room at the home of Dr. and Mrs. E. F. Todhunter, on East Temple street, resulted in serious damage to the residence by fire and water, and considerable damage to furniture and other household goods resulted.

The roof was badly damaged and the fire was gaining rapid headway when the department arrived.

Dr. Todhunter estimates the total damage at above \$500.

ATHLETICS PLAY AT WILMINGTON SUNDAY

The Athletics, with Cork Linson on the mound, stack up Sunday against the Wilmington Clintons, at Wilmington, in the second game of the present season and are prepared to put up the game of their lives. Many local rooters will accompany the team, a number leaving at noon Sunday in the baker motor bus.

To date, counting the three years that these teams have opposed each other, each has a credit of three games. A week from Sunday Wilmington will play here and it is expected that these two games will decide a championship between the contenders.

The Washington line-up and batting order follows: Corwin, ss; Adams, 1b; Noon, lf; Corbin, rf; Rannels, 2b; Winters, 3b; Jones, cf; Hagerty, c; Linson, p; Cotterill, Smith and Pine, utility.

CITY OFFICIALS VIEWING STREETS

Friday morning, in accordance with previous arrangements, the city councilmen and other officials met at the mayor's office and left in a body to view a half score of streets which have been improved under the assessment plan, during the past few years, and to ascertain just what the trouble is with the improvements that the property owners have seen fit to refuse to pay the assessments, and to find a remedy.

By recommendations to follow the inspection trip, it is expected that assessments will be collected, either by compromise, or finishing the streets in proper manner so that the improvement will be an improvement in fact as well as in name.

"DEAD BEATS" LOSING OUT

Fayette Credit Bureau Turning Trick Which is Placing Credit on Proper Footing in This City, and Weeding Out Persons Who Do Not Pay Their Debts—112 Business Men Have Access to Rating of Every Person.

One hundred and twelve business and professional men of Washington C. H. have banded themselves together in a most important matter. While 19 out of 20 persons are strictly honest and pay their debts promptly there is perhaps one person in 20 who fails to pay. He not only cheats the merchant out of his bill but he and his kind often bring suspicion upon other perfectly honest and deserving persons. The man who will pay suffers because of the faults of the man who won't pay.

Washington business and professional men have arranged not only

for protection against the careless and dishonest debtor but also have, being given all who are in debt at the same time, provided a way to serve the honest and deserving far better than ever before.

Through The Fayette Credit Bureau every person trading in Washington has been listed in an "Information File." This "File" now contains the names of over seven thousand persons. They have been classified into four divisions. This classification is based solely upon record for honesty and promptness in payment of bills. These classifications are: "Prompt Pay, Fair Pay, Slow Pay and Won't Pay."

Every one of the 112 members of the Fayette Credit Bureau has access to this "Information File." If any person has abused his credit with one or more Bureau members that fact is communicated to all other members.

The plan is airtight. Persons owing old bills are gradually having their credit cut off all over town. Of course, they are first given a chance to pay up. Many have paid up and thus saved their credit. Others have neglected their chance. They are finding it harder on them every day. Some have moved out of town and the local merchants are glad to see

them go. Every reasonable chance is being given all who are in debt. Special terms to suit any man's circumstances can be arranged. All he has to do is to prove that he is honest by trying to pay; then he will be helped.

Likewise those persons whose record is good are in a better position than ever before to obtain any favor desired. The merchant does not have to guess about them now. He has their record and extends credit because their record is good.

SERIES OF BURGLARIES ARE COMMITTED DURING THE NIGHT

Frank Reichert's Office is Entered and \$25 Removed From Safe—Office of Sears Canning Factory Entered and Every Chicken Belonging to Sunnyside Woman Stolen—Work Evidently That of Boys.

In the face of extra precaution on the part of the police force, three robberies were committed in the southern part of the city sometime Thursday night, and the police took up the trail Friday morning in an effort to apprehend the thieves and bring them to justice.

The largest haul of Thursday night was at the Frank Reichert office on an alley between South Fayette and South North streets, where the safe was entered and some \$25 in money was removed by the pair of thieves.

Entrance had been gained from the rear of the building, the burglars being compelled to pass through a neighboring garden to reach the place. Their tracks were very plain and the police obtained exact measurements.

By forcing a window the office

was entered, and the combination of the safe was successfully operated and the safe rifled, papers being scattered about in utmost confusion. The work had evidently been done by persons perfectly familiar with the interior of the office.

At the Sears Canning plant entrance had been gained by cutting the panel from a door, and the intruders ransacked the room, but obtained nothing of importance.

At the residence of Mrs. Mary C. Briggs, on South Main street, the hen house was entered and every chicken stolen. No clew was left that might lead to the capture of the thieves.

The police are of the opinion that the work is that of two or more boys, probably under 18 years of age.

The clews obtainable are being worked upon by the entire police force, and results are expected within the next day or two.

Three weeks ago the Reichert office was entered and a score of bottles of pop taken, and quite a few other burglaries have taken place since that time.

In Social Circles

A society event of next week will be an "at Home" on Wednesday, the 21st of October, in honor of Miss Ireland, a November bride, for whom Mrs. Thomas H. Craig, Mrs. Walter D. Craig, Mrs. Clarence E. Craig and Miss Craig have issued invitations.

Miss Anna Lewis, daughter of Rev. and Mrs. W. H. Lewis, of Franklin avenue, and Mr. Montgomery E. Pike were married yesterday forenoon at the home of the parents of the bride. Rev. Dr. N. W. Good officiated. Only the immediate families were present. White chrysanthemums and palms made pretty decorations. After a brief trip, Mr. and Mrs. Pike will be at home at 794 Franklin avenue. The bridegroom, an Iowa State university graduate, is an attorney at law.—Thursday Ohio State Journal.

The charming bride has a large circle of friends and acquaintances in this city, her former home, who

are learning of her marriage with interest.

Mr. and Mrs. Ed Fite and Mrs. Roy Dove, of Shelbyville, Ill., who is now visiting her parents, Dr. and Mrs. W. E. Ireland, attended the wedding from here.

An enjoyable kensington was held in the parlors of Grace M. E. church Friday afternoon, attended by a full contingent of the women of the Home Missionary society.

After the program a dainty collation was served by the afternoon's hostesses, Mesdames C. D. Snider, George Hays, Ella Taylor, E. F. Todhunter, C. U. Armstrong, H. H. Whelpley, Alice Parrett, Herman Price.

SUFFER REVERSE NEAR WARSAW

London, Oct. 16.—The Germans have been defeated in a great battle near Warsaw and were driven back twenty miles before they could be rallied upon a new line of defense, according to a St. Petersburg dispatch received at Rome. The Russians took thousands of prisoners, it is claimed, and many field guns and maxims abandoned by the enemy. The Russians were commanded by Grand Duke Nicholas and the Germans were led by General Von Hindenburg, who was summoned from East Prussia several weeks ago to conduct the invasion of Poland.

There is an intimation in the unofficial news that the Russians employed their customary tactics of luring the Germans to attack on unfavorable ground and of making the best possible use of concealed artillery. If the victory was of the proportions represented, the German invasion of Poland has been effectually halted.

The invasion began about Sept. 27, after the German general staff had taken over from the Austrians the entire control of operations in the east. General Von Hindenburg was directed by the general staff to stiffen Austrian resistance in western Galicia. This having been accomplished, and three German army corps joined to the forces of Austrian Commander General Dankl, in the region of Cracow, General Von Hindenburg put in motion the offensive against Warsaw, designed to secure a suitable winter quarters for the Austro-German forces and to check the Russian advance, which was becoming perilous.

King Ludwig of Bavaria was assigned to command a German army operating eastward from Czenstochowa, while General Dankl, under the supervision of the German general staff, resumed an offensive in western Galicia. These various movements appear to have been checked by the Russian victory near Warsaw.

There is also news that the Russian advance in East Prussia has lost none of its force.

The news from Galicia consists of conflicting statements. Petrograd asserts positively that the Russians are maintaining the siege of Przemyśl with every probability of success. This is contradicted by the reports from Vienna and Berlin, which state that the Russians have been forced out of the region of Przemyśl and have fallen back to fortified positions on the line of Stry, Sambor and Mityra.

Capetown, South Africa, Oct. 16.—As a result of Colonel Maritz's rebellion in the northwest of the cape provinces, General Louis Botha premier of the Union of South Africa

and commander of the troops of the Union, is taking the field earlier than he originally intended to. General Botha is placing himself at the head of several strong Dutch commandoes, organized on the old burgher line, which are affiliated with regiments trained by the Union defense force.

Commandants, field cornets and burghers who served under General Botha in the South African war are rallying to his call irrespective of their political feeling, to fight alongside the English in defense of the empire against which they were in arms twelve years ago. This fact has had a marked effect on waverers, who, it is claimed, now are flocking to General Botha's standard.

The rebels within the Union having openly declared themselves, the government considers itself not obliged to deal gently with them out of consideration for certain Dutch people who, even though they are not strong supporters of the government, are said to have drawn the line at rebellion. The government also is adopting stern measures by arresting prominent men who are suspected of sowing sedition, charging them with high treason.

General Hertzog, who has been one of General Botha's most bitter opponents, has placed his services at the disposal of the premier.

FACTIONS FAR APART

El Paso, Tex., Oct. 16.—News from Aguascalientes, Mexico, stated that the conference of Mexican generals at that point had adjourned until Oct. 20, to await the arrival of delegates representing Emiliano Zapata of Morelos and Governor Maytorena of Sonora. Denial was made that the conference accepted the resignation of Carranza, and Carranza officials here declared that they did not believe this would result. It is certain that such action would not be taken, Carranza men said, unless Villa, Zapata and Maytorena were able to muster more votes than appeared assured to them now. Carranza men asserted that attempts were being made to pack the meeting. The proposed commission form of government for Mexico, whereby the country would be ruled by seven generals, is a Villa plot to oust Carranza, and will meet with strenuous opposition.

OSTEND IS DESERTED

London, Oct. 16.—Ostend, the famous resort on the Belgian coast, is practically a deserted city. Belgian and British troops have been transferred southward, many detachments boarding transports for debarkation, probably at Calais or Boulogne, while several columns marched in the general direction of the allies' left wing. The only persons left in Ostend are the civil authorities and a few thousand citizens and visitors who haunt the quays, appealing for passage to England. Their plight is serious because there is no means of transport across the channel.

If the German army under General Von Bessler has not already occupied Ostend, it is unquestionably in a position to seize the town at its leisure. Bruges, south of Ostend, has been occupied by the Germans.

FRENCH REPORT SHOWS PROGRESS

Paris, Oct. 16.—The government's official communique reads: "Reports show progress on our part at several points on the front: On our left wing north of the Lys, where we have taken Estaires; on the center, north and east of Rheims, where we have advanced about two kilometers; on the heights of the Meuse and in the Woevre, south of St. Mihiel, and near Marcheville."

POSITIVELY MASTERS CROUP.

Foley's Honey and Tar Compound cuts the thick choking mucus, and clears away the phlegm. Opens up the air passages and stops the hoarse cough. The gasping, strangling fight for breath gives way to quiet breathing and peaceful sleep. Harold Berg, Mass, Mich., writes: "We give Foley's Honey and Tar to our children for croup and it always acts quickly." Blackmer & Tanquary. adv

NEW "TWILIGHT SLEEP" DISCOVERY

New York, Oct. 16.—A new "twilight sleep" for which are claimed all the advantages secured by the administration of scopolamine and morphine, with none of the disadvantages, was described by Dr. Herbert C. Allen at the closing session of the meeting of the Homeopathic Medical society of New York. The American twilight sleep, as Dr. Allen calls it, is not properly a "sleep" at all, since it does not bring the patient even into the twilight land of semi-consciousness. It gives insensibility to pain while leaving the patient capable of conversing with the physicians and awake to much that is being done. This result is secured very simply by the administration of nitrous oxide, the familiar "laughing gas" of the dentist's chair, and oxygen.

Dr. Allen disclaims credit for the discovery, saying that at the Cumberland Street hospital, Brooklyn, where the new "twilight sleep" has been tried out, they have merely applied a method for use in child-birth which has been used in other lines of medicine and dentistry.

HAMMER BACK GERMAN RIGHT

Paris, Oct. 16.—General Joffre's reports indicate such advance by the allies all along the line in France as to counterbalance the extension of the German forces in North Belgium. The news is positive and definite that the allies are steadily hammering back the German right wing in northern France, forcing the Kaiser's armies to abandon fortified positions in the center of their line, nullifying all assaults against the Verdun-Toul-Belfort barrier, and by advances from Verdun are threatening the great fortress of Metz.

There is unofficial news that the French in Alsace have beaten the Germans in severe engagements, have retaken Altkirch and Mulhausen, and are driving the enemy toward the Rhine.

While massing a large force to block the anticipated German advance toward the French coast cities, it would appear from official news that General Joffre is simultaneously renewing with some success his persistent attack on the German west flank in France. Marked progress reported between Arras and Albert was to show that the German right wing has been pressed back toward its center of communications at Cambrai.

For several days the allies have been gaining at the old battle line north of the Aisne, slowly getting a foothold on the Champagne hills. They have driven the Germans from trenches and thereby continued a movement which, while temporarily lost sight of because of the dramatic operations in the north, is of the utmost importance as indicating that the Germans are not keeping their grip upon positions that are vitally necessary to their stand in French territory.

Undoubtedly the Germans are nearly ready to strike powerfully at Calais and Boulogne and to attempt a new general advance toward Paris. But the news of the day shows that the allies are occupying strong positions and are acting with more certainty than for weeks past.

It is declared that when the Germans were defeated at Arras they lost 15,000 men, who were surrounded by the French in some marshes.

Evidence that the German assaults are being delivered with less force is conveyed in the intimation that between the Somme and the Oise their artillery attacks are not being followed up with infantry charges.

STEAMSHIP RAMMED

New York, Oct. 16.—While passing her way through a thick mist in Sandy Hook, the United Fruit company's steamer Metapan, from the Caribbean, was rammed by the American-Hawaiian freighter tower bound out, and run aground by the skipper, Captain Spencer, to save her from foundering with her passengers and a rich cargo, including half a million in gold bars. None of the passengers or crew was hurt, but the Metapan will be out of commission some time because of an ugly rent in her port bow. All the passengers were taken off.

OHIO HAPPENINGS

Knights Templars Elect.
Columbus, Oct. 16.—After electing officers and selecting Toledo for next year's meeting, the grand commandery of Knights Templars of Ohio closed their seventy-second annual convocation here. Nelson Williams of Hamilton was elected to succeed Campbell M. Voorhees of Columbus as grand commander. Mr. Voorhees was elevated to the rank of past grand commander. Lafayette Lytle of Toledo was elected grand treasurer and John Nelson Bell of Dayton grand recorder. The records indicate that the strength of the Knights Templars in Ohio is close to 18,000. This places Ohio fifth in the membership of the various states.

Cinnamon Oil Sold to Pupils.
Lima, O., Oct. 16.—The Lima board of education has instructed City Solicitor Walter S. Jackson and truant officers here to begin immediate prosecutions against any druggists or other persons caught selling cinnamon oil to pupils. Investigation showed many school children are soaking sticks in cinnamon oil, then chewing the sticks. This, investigators reported, causes stupidity.

WHITE SOX CHAMPIONS

Chicago, Oct. 16.—The White Sox won the seventh and the decisive game of their series with the Cubs and took the city championship for the fourth successive time. The score was 3 to 2. Humphries, Vaughan and Lavender, who pitched for the Cubs, held the Sox to two hits, but one of them was a double by Roth, and this crowd won the score. Scott was driven from the mound in the first round. Cicotte followed and pitched a great game. The Cubs gathered a total of eight hits.

SLAYER'S ACCOMPLICES BOLDLY GIVE TESTIMONY

Sarajevo, Serbia, Oct. 16.—Gabrinovic, an accomplice of Gavrillo Princip, who killed the Archduke Francis Ferdinand and his wife, the Duchess of Hohenberg, at this place on June 28, was put on the stand during his trial for participation in the crime. Gabrinovic admitted that the murder plot was hatched in Belgrade. He said Major Tankosic, a Serbian officer, supplied him and his fellow conspirators with the revolvers and bombs with which they intended to kill the royal pair. He also furnished the transportation. Princip, who fired the fatal shots, was the next witness. He declared that he did not regret his crime.
